

## Project Manager

Company : AimValley B.V.  
Location : Hilversum, The Netherlands  
Relevant experience : at least 3 years

The Company AimValley ([www.aimvalley.com](http://www.aimvalley.com))

### AimValley, what we do

With almost 100 colleagues we provide Design Services dedicated to the development of complex embedded systems for telecom and datacom and other high-tech applications.

We offer our customers cost-optimal and energy-efficient products with a very high availability, a long lifetime and the ability to perform in harsh environments. AimValley has a strong track record in development of such products.

### AimValley, organizational culture

At AimValley we have an open and direct culture. We are technology driven. Developers focus on “getting things done”. We have short lines of communication and there is ample room for autonomy, driven by professionalism.

Teamwork is key to our success. Teams are grouped around a customer project and work systematically to provide the required features and the agreed time to market. We pride ourselves on delivering our projects on time and within budget.

### Why work for AimValley as a Project Manager

- Be part of a cutting-edge high-tech development company.
- Challenging work in supporting international customers of complex products.
- Be the driving force in complex and technical projects.
- Lead and motivate project teams consisting of engineers from multiple disciplines and with various skill levels.
- A good Work/Life balance by flexible working hours (between 7am and 7pm) and a possibility to work part-time and work remotely.
- Excellent team spirit in a challenging environment.
- Occasional travel to customers (also abroad).
- Opportunity for personal growth in leadership areas.
